

ACKNOWLEDGEMENTS

The Commission acknowledge with gratitude the sincere and dedicated service of the officers and staff appointed to the Pay Revision Commission. But for their devotion to duty the Commission could not have maintained the confidentiality required to be kept at all times and completed their work on schedule. It is not possible to single out any one in particular and so we are refraining from doing so. The collective effort enabled the Commission to work as a team in a harmonious environment, which contributed in no small measure to the fulfillment of the task entrusted to the Commission without any serious impediment.

A team of consultants engaged by the Commission gave us valuable inputs. We would like to record our appreciation to the Director, Centre for Development Studies Dr. K.N. Nair and Prof. N. Shanta for having submitted an erudite analysis on the state of Government finances. The institute of Public Auditors Kerala Chapter gave us important material on the financial implications on allowing re option facilities when there is a pay revision. The Commission express their gratitude to Shri. James Joseph, the President of the Kerala Chapter, and to Messrs Vijaya Kumaran Nair and M.C. Chandrasekharan Pillai who were instrumental in drafting the report. Shri. Ramachandra Panicker, a retired Additional Secretary of the Finance Department and a veteran of Pay revision helped the Commission in formulating their suggestions on pension reforms. His services are gratefully acknowledged by the Commission. Lastly Dr. Sabu Thomas, a keen student of the comparative positions of pay revisions in Kerala and a few other States gave us an illustrative report covering critical areas like time bound higher grades and ratio promotions. We are grateful to Dr. Sabu Thomas who is a Fellow doing applied economic research in CUSAT.

We would like to express once again our gratitude to the Hon'ble Speaker of the Legislature for having granted us adequate office space and the timely help we got from the House Keeping Cell of the Legislature through whom we got the office set up in quick time. The engineering wing of the Legislature worked out of office hours to make the office space functional and by air-conditioning the rooms of the Chairman and Members.

The computers installed were serviced efficiently by Accu Systems, for whom also the Commission would like to record a word of thanks. Last but not the least is the BSNL which installed trouble free telephone and fax facilities, which immensely helped in the smooth functioning of the Commission.
